Ayaanle Nur

Profile

I am a performance-driven and motivated Full Stack Software Developer equipped with solid knowledge of many different back-end and front-end technologies, databases and responsive frameworks by completing the Full Stack Software Developer program provided by University of Birmingham. Additionally, an effective team player with the ability to efficiently carry out tasks individually, evident from my successful career in accounting and finance. Seeking for a long term role that hones and enhances the aforementioned skills.

Technical Skills

HTML, CSS, JavaScript, React, NodeJS, ExpressJS, MySQL, MongoDB, GitHub, Docker, Visual Studio Code, Postman

Projects

Restaurant Finder

- All restaurants in one place application that provides details of close-by restaurants using customers' current location and navigation apps
- **Technologies used:** HTML, CSS, Bulma and JavaScript.
- **GitHub URL:** <https://github.com/anuur7/AHA-5-Food->
- **Deployed Link:** <https://hummanosh.github.io/AHA-5-Food-/>

Charity Application
